RE: The Power Charge Indifference Adjustment Proposed Increase and
Proposed Decision in A.15-06-001, PG&E's 2016 ERRRA Proceeding

Dear President Picker and Commissioners,

I oppose PG&E's proposed 95% increase of the Power Charge Indifference Adjustment (PCIA) charged to Community Choice Aggregation (CCA) customers in Application 15-06-001. As a resident of Pacifica, I look forward to Pacifica's membership in the CCA for San Mateo County, Peninsula Clean Energy. I believe the proposed PCIA increase will profoundly affect the viability of Peninsula Clean Energy.

Peninsula Clean Energy will offer customers competitive choice, opportunities for additional services, and will support the local economy. CCAs that are already operating have led the state in achieving Governor Brown's ambitious renewable energy goals. Please allow San Mateo County to have a similar opportunity to reduce greenhouse gas emissions and support local energy resource projects by voting against PG&E's 2016 PCIA increase. Instead, I support a re-examination of how the PCIA is calculated and applied to CCA customers.

Sincerely,
