

The following parks and trails are closed due to storm damage: Sawyer Camp Trail segment of Crystal Springs Regional Trail has been closed due to flooding until further notice. Memorial Park in Loma Mar will remain closed until evaluations of the storm damage can be made on Thursday, February 9. Three trails in Pescadero Creek Park have been closed until further notice: East Brook Trail is closed due to a recent landslide across the trail; take Town Fire Road as an alternative route. Old Haul Road is closed due to a large landslide just west of Fall Creek Crossing. Passage along Old Haul Road beyond its intersection with Butano Ridge Trail is blocked. Shingle Mill Trail has also been closed.

Due to recent rain and high surf, significant erosion is occurring on coastal bluff areas. Visitors to Pillar Point Bluff, Mirada Surf, and Fitzgerald Marine Reserve are advised to use caution when walking on bluff trails and on the beach below bluffs. Please stay on designated trails. Do not go near bluff edges and do not walk directly under bluffs when on the beach. For your safety and that of others, please heed signs and do not remove warning signs, trail signs, and barriers. Maps showing designated trails are posted at park entrances and on trails. Please check for updates and advisories: <http://parks.smcgov.org/san-mateo-county-park-advisories>
