

BREAKING NEWS!

Valley Water has dropped their lawsuit against the state over the Bay Delta!

We have been vocal with Valley Water since [the beginning](#), letting them know that we oppose this lawsuit.

When the State Water Board [mandated 40% flows in the Bay Delta Plan](#), we felt that this compromise was a step in the right direction. A lawsuit against it would only move us further away from collaborations that will help the health of the river and threatened habitats in the long-run.

Because of your community activism we were able to mobilize and help Valley Water do the right thing.

Together, we will continue to advocate for more responsible environmental decisions as we turn our attention to BAWSCA and the SFPUC.

For background information on the lawsuit click [here](#).
