

Dear friends,

I need your urgent help to write to President Biden using this link (<https://whitehouse.gov/contact/>) and the template below to urge him to launch food and aid airdrops quickly over Gaza. White House officials are currently exploring options for using U.S. Air Force aircraft to conduct these humanitarian air operations. Public support now can help positively influence and expedite the making of this life-saving decision to do the airdrops. With the provided ready-to-use/universal template, emailing the White House should literally take no more than one minute. I've spent an enormous amount of time working on this proposal. Please help me push this over the finish line. Thank you.

Scoop: U.S. weighs airdropping aid into Gaza as land deliveries slow - AXIOS

<https://www.axios.com/2024/02/28/biden-airdrop-aid-gaza-israel>

Dear President Biden,

I am writing to support humanitarian airdrops over the Gaza Strip. The devastation, misery, and hunger in the coastal enclave, particularly in the isolated north, require urgent action from the U.S. to prevent famine and address some of the suffering that civilians are experiencing. Conducting food and aid airdrops over Gaza is urgently and critically needed to reverse horrendous scenes of hungry civilians and famished and malnourished children. The U.S. Air Force has vast cargo capabilities and experience in carrying out humanitarian airdrops in conflict zones. C-130 and C-17 transport aircraft are ideally suited to partake in such humanitarian air operations, which have been carried out by a host of nations in recent days, spearheaded by the Jordanians, with help from France, Egypt, and the United Arab Emirates. Time is running out for rapid action that can make a dent in helping desperate civilians suffering from circumstances they can't control. Combat conditions, logistical challenges, and red tape have made land-based aid delivery difficult. While airdrops are not a permanent solution, they are effective in quickly getting food to those in need. I urge you, Mr. President, to do the honorable and humanitarian thing and quickly launch food and aid airdrops over Gaza.
