

**DREAM MACHINES SHOW UNEXPECTEDLY CANCELLED AGAIN
IMPORTANT FUND-RAISER LOST FOR THIRD YEAR IN A ROW**

HALF MOON BAY, CA (February 4, 2022) – Coastside Adult Day Health Center, the primary organizing body and beneficiary of the popular Pacific Coast Dream Machines Show, today announced the unexpected cancellation of this year’s show initially planned for April 24 at the Half Moon Bay Airport. Inexplicitly after three months of planning, last week San Mateo County Airport officials notified show organizers that a substantial portion of the airport field, in the heart of the event’s major attractions area, is now under cultivation and is being farmed and therefore not available to the show. Event organizers determined changing everything to scale down the event to fit into what remains of the event’s allocated airport space would result in higher cost, added complexity, and a Dream Machines show that would not approach the high standard or fund-raising success that has been established over the last 30 years.
