

Friends,

It's that time of year for The Great Race for Saving Water, and I would greatly appreciate your sponsorship of my participation to help raise funds for TRT. 2018 was an exceptionally productive year for us, and 2019 is bringing more of the same. Please visit my fundraising page at <https://www.flipcause.com/secure/fundraiser/NDgwNjU=/31580> and help out if you can. Even better, consider joining us as a fund-racer (details are at the bottom of my page).

Just last week we turned out dozens of supporters to testify at the FERC dam licensing meetings. It was empowering to outnumber our opponents two-to-one, especially considering the meetings were in Modesto. Many thanks to those of you who participated! If you weren't able to testify in person, please consider submitting written comments (they really do make a difference). We've posted talking points and filing instructions at <https://www.tuolumne.org/please-submit-written-comments-by-april-12/>. Please note the deadline is 2pm on Friday, April 12.

Thank you for all your support!

-Peter
