

Hi Folks,

I'd like to draw your attention to two exceptionally good articles.

The first is a very comprehensive article about the SFPUC's role in blocking the Bay Delta Water Quality Control Plan:

California Salmon Suffer in Drought

<https://pacificsun.com/california-salmon-suffer-in-drought/>

The second is an excellent editorial from the LA Times:

The California salmon wipeout is even worse than you think

<https://www.latimes.com/opinion/story/2021-07-26/editorial-california-salmon-extinction-extreme-heat>

Also, if you would like to watch a recording of the July 16 SFPUC workshop on water demand projections, it's posted

at https://sanfrancisco.granicus.com/MediaPlayer.php?view_id=22&clip_id=38991

Hardly a dull summer!
