

Hi Folks,

I thought you might enjoy this article.

**Does SF have enough water to give some back to the salmon—and the ecosystem?**

SF is hoarding water and killing fish—or it's preserving a precious resource from impending drought. Depends whose numbers you believe.

<https://48hills.org/2022/04/does-sf-have-enough-water-to-give-some-back-to-the-salmon-and-the-ecosystem/>

Slowly but surely, the truth is getting out.
