

I wrote to you back in April/May about Pacifica Peace People's planning for an event to take place in the Fall to address racism in our community. We are **HERE** now and have planned this important community event for **Thursday, October 05, 2023** — see our flyer below.

MANY of you have already helped us immensely to get here. Thank you!

As we draw near to the event itself, your help is greatly needed to **PROMOTE THE EVENT** with all your might! Please publicize this important event through your networks: email, social media, person-to-person, text messages — however you can best get the word out. Please encourage people to participate in this multigenerational community dialog. We believe that your presence and participation will have a positive impact in our community! We are **strongly recommending REGISTRATION**. That will help us know how many people to expect.

If you can help us that evening by bringing snacks, welcoming participants at the door, serving at the resource tables, **please let me know** and I will gladly give you specific information about what you can do.

With deep gratitude, and peace always, Delia McGrath for Pacifica Peace People.
