**FOR IMMEDIATE RELEASE**

## **NEW DEGREE PROGRAM IN BUSINESS ADMINISTRATION DESIGNED FOR WORKING ADULTS**

**San Bruno, California – June 18, 2019** – Skyline College announced today a new degree program named Skyline College NOW, a convenient way for working or busy adults to earn an associate’s degree through courses offered at night, online and/or on weekends. An Associate Degree for Transfer in Business Administration will be offered in the new Skyline College NOW accelerated format this fall semester in August 2019.

Courses will be offered back to back, in 8-week lengths, with students taking one to two classes at a time to allow them to maintain balance between their busy life and progress toward degree completion. Courses are uniquely designed to build community and provide opportunities for networking in a dynamic online learning environment.

“Skyline College NOW is a transformational new opportunity for working adults who just haven’t been able to fit pursuing their higher education goals into their life as of yet, said Jennifer Taylor-Mendoza, Ph.D., vice president of instruction at Skyline College. “We are starting with Business Administration but will be scaling up to additional areas of study in the future.”
