In response to a request by the presenter, this link will be available only until the beginning of March.

We encourage everyone to visit our Pacifica Coastside Museum at 1850 Francisco Blvd, Pacifica (Tu, Th, Sa. 1-4 PM). We have a new Exhibit about the history of Pedro Point and Shelter Cove neighborhoods, both of which were active areas during Prohibition. We also are showing a video from 1987 about Prohibition in our area, featuring interviews with several residents who lived here during that wild time, and the "Prohis" who tried to prevent liquor coming ashore from the Canadian ships anchored offshore.

Our next event on Sunday, February 27 at 4PM, will be a Virtual Panel Presentation via Zoom: "The Hazards of Living in Scenic Pacifica". Four panelists will share their first hand experiences with storm waves destroying houses in Shelter Cove in 1960, the flooding of West Linda Mar in 1982, falling trees damaging property in Vallemar, and cliff erosion on the west side of Esplanade causing destruction of several homes and two apartment complexes. To register for this event send an email to <[info@pacificahistory.org](mailto:info@pacificahistory.org)> with your name and the email address you will use to watch the presentation. Put "register" in the subject line.

Another new exhibit coming soon to the museum, is entitled "To Build or Not to Build, THAT is the question". This exhibit will feature posters with information about Pacifica's residential development over time since 1915; the history of the Pacifica Hillside Preservation Ordinance; and developments and highways that were proposed but not built. Three videos about Open Space Preservation may be viewed through the website of the Pacifica's Environmental Family (PEF) <[Pacificasenvironmentalfamily.org](http://Pacificasenvironmentalfamily.org)>.

We encourage everyone to become a member of the Pacifica Historical Society. Our dues are modest and museum expenses continue endlessly:
