

**Yes, you read that right; these
little beasties are
street legal.**

**They run on either Kawasaki or Honda
motorcycle engines and co-opt vintage
bumper car bodies into the most awesome
form of mini-car we've seen in too long.
There are seven of these little monsters
floating around California and they 're
all the creation of one man, Tom Wright,
a builder in the outskirts of San Diego
who figured the leftovers of the Long
Beach Pike amusement park needed a
more dignified end than the trash heap.**

**They were originally powered by two
cylinder Harley Davidson
Motorcycle engines but they rattled like
heck because of the two cylinder
Vibration and Tom replaces them with
four cylinder Honda or Kawasaki 750 's
And a couple have been measured as
capable of 160 MPH, which is terrifyingly**

**fast in machines with such a short
wheelbase.**

**By the way, the cars are almost
Indestructible in accidents!**
